

# HOW TO SAVE OVER \$600 A YEAR ON GAS WITH FUEL INFUSION

By regularly using Fuel Infusion in your vehicles, not only will you save money on fuel, but you'll also save money on maintenance and repairs in the long run. Fuel Infusion is a unique fuel catalyst that improves the combustion process. It cleans out the harmful carbon deposits in your engine and prevents them from forming in the future. Fuel Infusion can dramatically reduce the harmful emissions produced by your vehicle as well.

## Average 2-Car Family Without Fuel Infusion

Average MPG: 20

Average monthly miles: 1,250

Cost of fuel: \$3.06/gal

Oil changes per year: 6 @ \$35/each

---

Annual Fuel Cost  
+ oil changes **\$4,800.00**

## Average 2-Car Family With Fuel Infusion

Average MPG: 20

Average monthly miles: 1,250

Cost of fuel: \$3.06/gal

Oil changes per year: 2 @ \$35/each

---

Annual Fuel Cost  
+ oil changes **\$4,191.74**

## 3 WAYS TO SAVE EVEN MORE MONEY WITH FUEL INFUSION

### Lawn Mowers and Snow Blowers

If you're using a gasoline powered lawn mower, snow blower, hedge trimmer, chainsaw, or any other gasoline powered equipment then you should be using Fuel Infusion as well! Not only will Fuel Infusion help your equipment run better, you will also save some money on fuel throughout the year. Every little bit helps!

### ATV's, Snowmobiles, Dirt Bikes

Gasoline can be one of the most expensive parts riding the trails with your four-wheeler, dirt bike, or snowmobile. Use Fuel Infusion to help cut the cost of fuel! Share it with your friends as well.

### Boats, Wave Runners, Ski-Doo's

Make your next trip to the lake a little easier on the wallet by using Fuel Infusion in your boat, jet-ski or wave runner. You'll be using less gas, and emitting less pollution!

\*These numbers are based on an estimated increase in fuel economy of 15%. Average increase is 14.7%. Savings may vary based on type & age of vehicles, environmental conditions, vehicle service/maintenance programs, driving habits, etc... In addition, Fuel Infusion has recorded documentation of immediate increase in horsepower, more than five times longer life for oil changes, substantially lower maintenance costs and longer engine component life. This is due to the elimination of current and future harmful carbon deposit build-up. By using Fuel Infusion, clients will also realize a substantial reduction in the level of airborne pollutants (HC, CO<sub>2</sub>, CO, & NO<sub>x</sub>) into the atmosphere. \*New vehicles will show a smaller increase in fuel economy but will remain in "like new" condition for a longer period of time because the carbon buildup does not take place.
